Greetings to staff, parents and students, our goal is to ensure a healthy and productive environment to the students so that they are empowered to make intellectual decisions necessary to develop in all areas of life.

All the activities conducted at primary level help them to bring out the best, by these activities we provide many opportunities both inside and outside the classroom to excel and reach their full potential.

I congratulate all the primary teachers to publish this NIPUN Newsletter for the first term of this academic year.

It is a mirror of various activities conducted for all-round development.

Message from Headmaster

NIPUN Newsletter is a mirror of the primary children activities under NIPUN Bharat Mission. It also gives an opportunity for the teachers to share their experience. We are focussing on Foundational Literacy and Numeracy as per NEP-2020.

Ultimate aim of education is to bring out the innate talents. Every experience at school level must become a positive print on young minds. I thank our principal madam Shri Bharati Devi and all the primary and secondary teachers for supporting at every endeavour.

6. DO NOT KILL ANIMALS

Ashish - 4B

Killing animals is one of the bad habits. This is not our right to kill animals. They also have right to live same as humans. We should treat them as humans. They have emotions as human. If a human is killed by an animal, we think that they are dangerous, if they come near us, we hit and send them away.

If we kill animals in our future there will be no food for us- milk, honey, meat etc. Even microbes too help us in protecting our environment.

8. OUR DELICIOUS FOOD

And go happily everywhere.
